

Ormus Group World Services

Application: Local Ormus Group Facilitator

... Our membership is for people who have personally observed the benefits of Ormus, who live life in Gratitude and who come together to share their Ormus journey with its joy, wonder, strengths and anticipations, solve their common problems and lend a hand to others towards experiencing Ormus benefits.

... Each Ormus Group should encompass an attitude of Gratefulness, a desire to live the best truth it knows, being of Service and Setting a Good Example as it carries the message of Ormus benefits to the world.

... Unless there is approximate conformity to the Ormus Group Program, your group may deteriorate and cease.

A group should not be named after a facility or person (living or deceased), and the name of a group should not imply affiliation with any sect, religion, politics, cause, organization or institution.

Ormus benefits are a universal truth so confining it to any form of ideology is limiting the concept and expansive experience your followers may have.
